

# Resources for Worship and Spiritual Connection

These resources are provided to help patients, families and staff experience worship from your tradition while you are here at the hospital, or to gain acquaintance with diverse traditions beyond your previous personal experience.

UIHC and the Department of Spiritual Services do not necessarily endorse the views espoused by these communities. While efforts have been made to find high-quality worship sources (local, where possible) from a breadth of spiritual traditions, we cannot guarantee that the content at these linked resources will be updated regularly, or will provide definitive views on the represented tradition.

If you celebrate a faith tradition not listed below, please feel free to contact our spiritual care department through your nurse or the hospital operator, and we will be glad to support you in-person or attempt to connect you with leaders from your faith community.

## Online Resources
